(a) Fingerprint added to class + position (n = 256)
Microretrognathia (52)
Intrauterine growth restriction (62)
Hypotonia (53)
Sleep disturbance (57)
Exaggerated cupid's bow (47)
EEG abnormality (49)
Intellectual disability (183)
Motor delay (77)
Hypertelorism (101)
Synophrys (96)
Conductive hearing impairment (92)
Macrodontia (212)
Low-set ears (41)
Thick eyebrow (131)
Mandibular prognathia (47)
Anteverted nares (88)
Cryptorchidism (82)
Low anterior hairline (88)
Microcephaly (113)
Autistic behavior (72)
Prominent nose (41)
Ventricular septal defect (142)
Long philtrum (130)
Abnormality of the hand (214)
Protruding ear (67)
Triangular face (99)
Speech/language delay (141)
Feeding difficulties (134)
Short stature (191)
Recurrent otitis media (53)
Strabismus (70)
Delayed skeletal maturation (113)
Bulbous nose (110)
ADHD (68)
